GEYUSHI

EXCELLENCE AND FLEXIBILITY MANUFACTURING

Geyushi Automotive Industry, a leader in Egypt's bus and truck manufacturing sector, has a production capacity of up to 5,000 buses annually. Our Design & Development unit excels in creating buses with specifications and components tailored to your needs. From length adjustments to engine power and interior configurations, we are dedicated to meeting our clients' needs in the Middle East and Africa. Our commitment to innovation and quality ensures compliance with the highest global and national standards, aiming for customer satisfaction in every model we produce.

EXPERIENCE SUPERIOR COMFORT AND PERFORMANCE

Embark on a unique journey with the Geyushi Z207D " **Tiba** ", a masterpiece developed by Geyushi Automotive Industry, carefully designed to enhance the travel experience. With its modern design and exceptional comfort, the **Tiba** bus transforms every trip into a luxurious journey, guaranteed to satisfy passengers in all terrains and climates. Designed for harsh environments and hot climates, it is built to withstand tough working conditions prevalent in the region. It fully complies with Gulf Standardization Organization standards, ensuring it meets the highest safety and quality standards. Ideal for various uses such as religious tourism, employee, student, or labor transport, with customizable specifications and components to diversify usage and provide reliable and comfortable mobility solutions.

**ROBUST EXTERIOR
APPEARANCE**

ROBUST EXTERIOR APPEARANCE

Tiba bus is precision-made, and its robust frame ensures a long lifespan and durability. Equipped with two or three passenger doors designed for easy entry and exit and illuminated route boards to improve communication with passengers. **Tiba** bus is a model of innovation, with advanced LED exterior lighting enhancing visibility and safety—including top and bottom halogen lights, fog lights, and daytime running lights—adding to its modern beauty.

**A SANCTUARY OF COMFORT
AND ELEGANCE INTERIOR**

LUXURY REFINED

RIDE IN COMFORT WITH TIBA

Embark on a journey of serene luxury with Tiba, where passengers comfort is controlled and crafted to perfection. Inside, advanced insulation complements our climate control system, maintaining a tranquil atmosphere shielded from external noise and weather extremes. Passengers revel in spacious seats equipped with an adjustable backrest lateral movement for increased space and comfort with ample legroom, footrests, and dining tables, illuminated by soothing white and blue LED lights. Each seat boasts its own USB outlet and is surrounded by entertainment options, ensuring a delightful journey. Drivers benefit from an air suspension seat and precise steering control, making every drive smooth and enjoyable. With **Tiba**, experience the pinnacle of comfort and control.

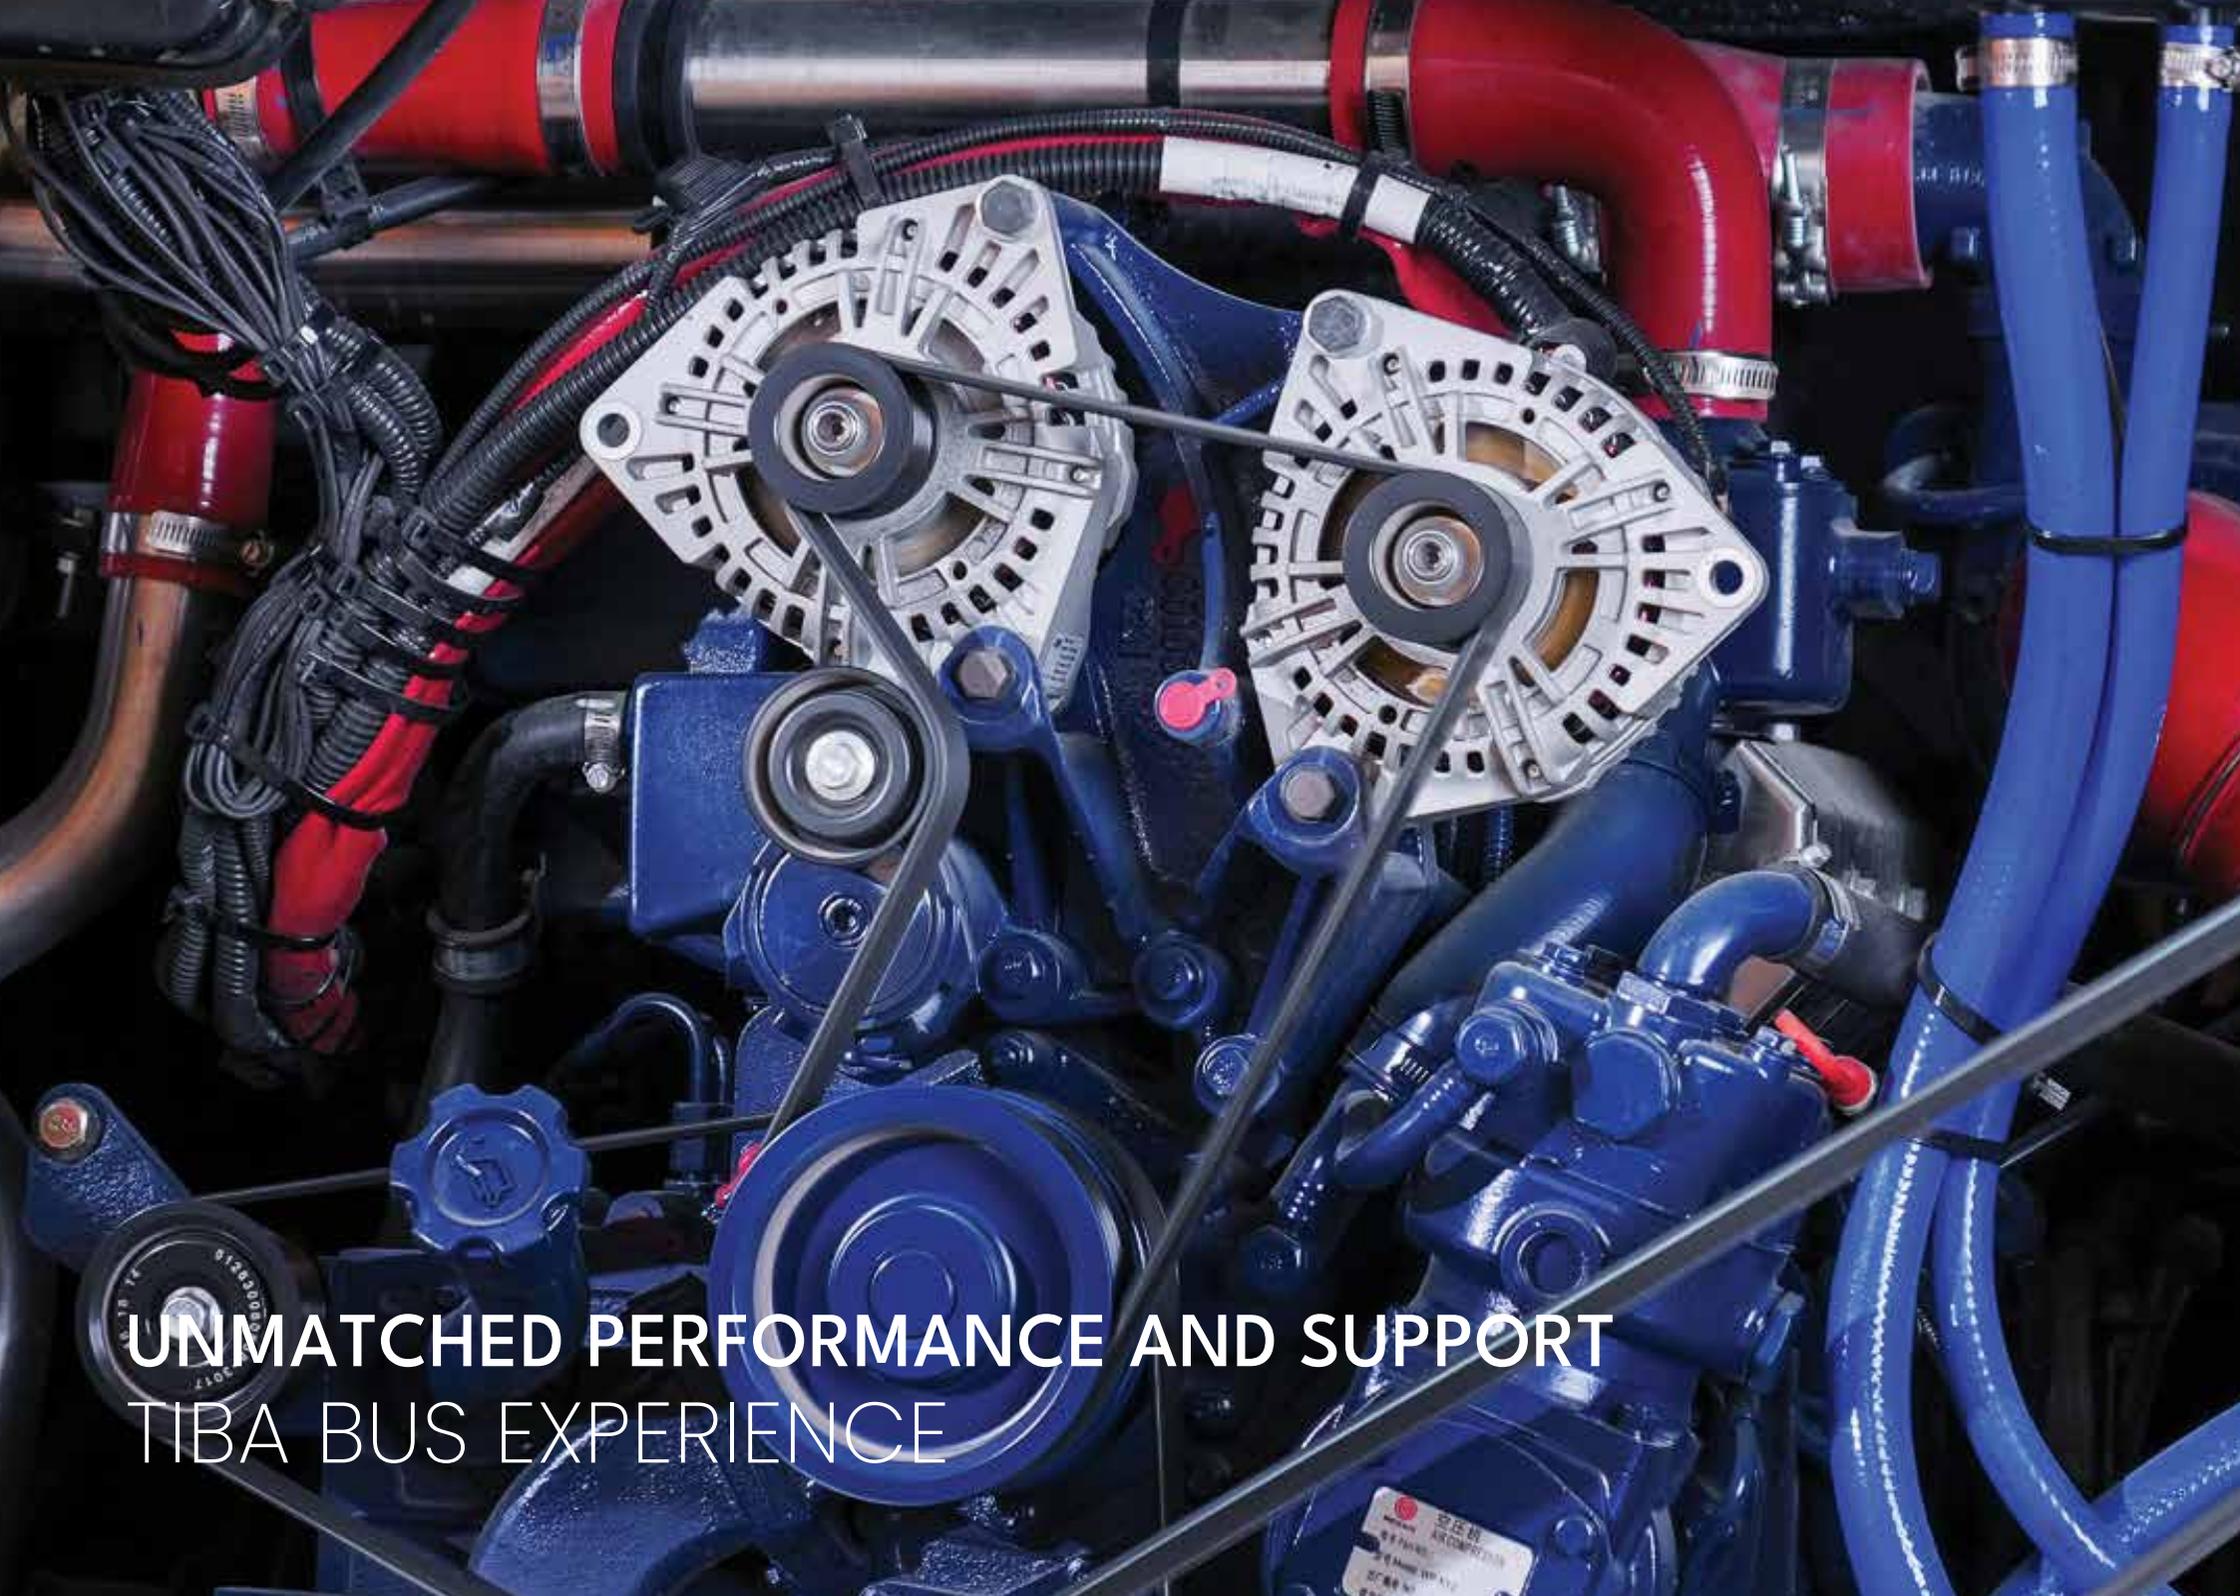

UNCOMPROMISED

SAFETY

Tiba bus prioritizes safety, equipped with a dual air circuit braking system and an optimal control EBS system. The automatic temperature control ATS system ensures the engine operates at ideal temperatures, enhancing the bus's lifespan and safety. It also features modern air suspension for maximum comfort during travel, along with a range of effective safety technologies, providing a comfortable and safe environment throughout the journey. Additionally, the bus is equipped with an advanced fire extinguishing system that automatically activates in the engine compartment to quickly handle any potential incidents, ensuring the safety of all passengers and the bus. Additional safety features include seat belts for all seats, a comprehensive monitoring system through carefully distributed CCTV cameras inside and outside the bus, and an integrated first aid kit box. It is also equipped with door sensor to prevent closure when any objects obstruct the closing process. **Tiba** bus is also enhanced with multiple emergency exits, including emergency exits above the bus and four side exits, ensuring quick and safe evacuation of passengers if necessary.

UNMATCHED PERFORMANCE AND SUPPORT
TIBA BUS EXPERIENCE

ADVANCED ENGINE FEATURES AND PERFORMANCE

We have equipped the Tiba bus with a powerful engine available in multiple emission standard categories from Euro II to Euro V, to minimize environmental impact and meet various market environmental requirements. The engine provides significant power and torque, ensuring efficient, reliable performance capable of operating on diverse terrains. The bus features an automatic transmission for smooth handling and response, and it can also be fitted with a manual transmission. The large fuel tank allows for long-distance travel without frequent stops.

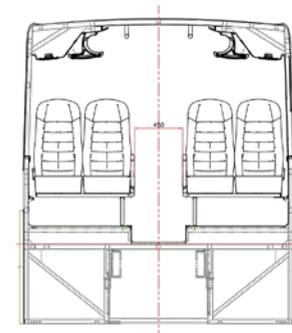

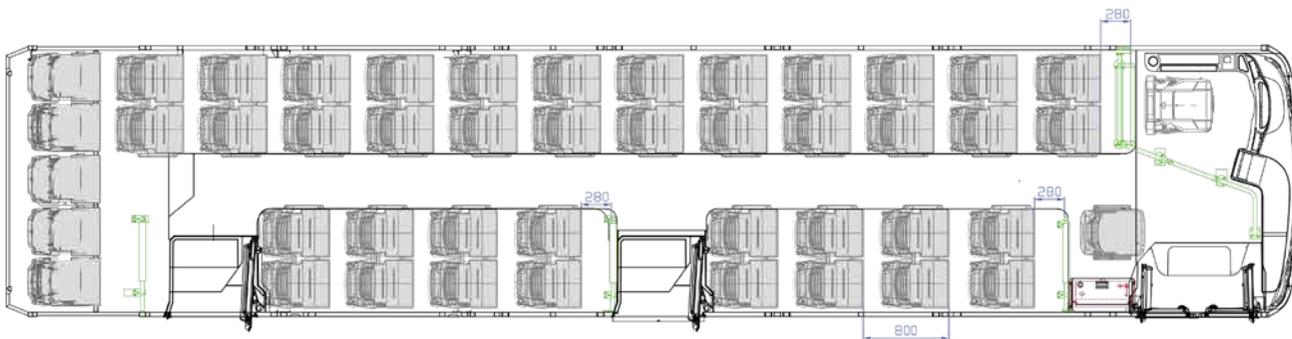

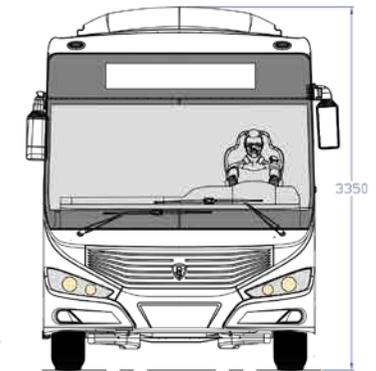

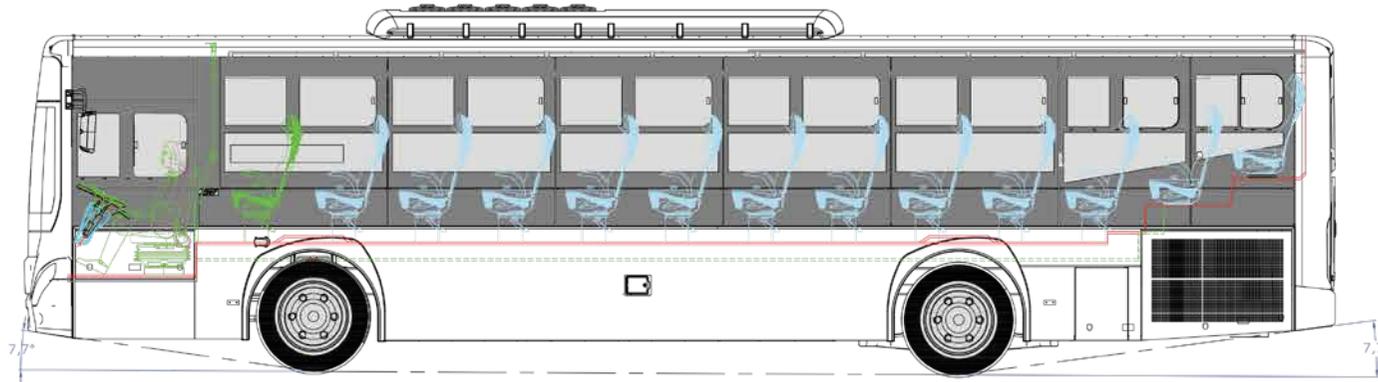

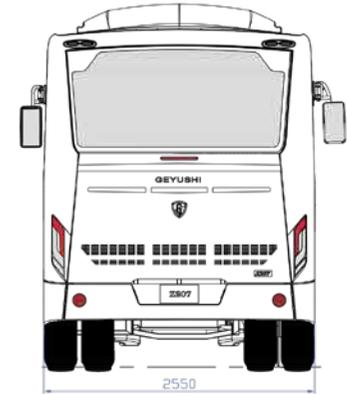

A PROMISE OF RELIABILITY AND SERVICE

The Geyushi Z207D "**Tiba**" bus is backed by a robust warranty, covering all manufacturing defects under normal conditions, ensuring prompt service and repair. Our dedicated 24/7 mobile service teams are ready to provide support and maintenance services directly at your location, ensuring minimal downtime and optimal performance in the challenging environment. Additionally, we maintain a well-stocked inventory of spare parts in regional hubs to guarantee rapid delivery and replacement, ensuring that your operations continue smoothly without prolonged maintenance delays.

LAYOUT

SPECIFICATIONS

Engine	Weichai - 6 cylinders in line	
displacement (ml)	7470	9726
Output (HP)	300 HP	336 HP
Torque	1160 N.m	1550 N.m
Emission Standard	Euro 3	Euro 5
Transmission	Voith automatic / FAST Manual transmission	
Steering	Integrated Power steering	
Brake System	Dual circuit, full air system ABS (EBS optional)	
Axles & Suspension	Air suspension, 2 front-4 rear air bellows, double acting shock absorbers, stabilizer front & rear	
Wheels	Wheel Tires: 295/80 R 22.5	
Fuel Tank Capacity	Up to 400 Liters	
Overall length (mm)	12000 - 12200 mm	
Overall width (mm)	2550 mm	
Overall height (mm) with A/C	3350 mm	
Passenger Capacity	Up to 49 passegner seats + 1 + 1	
Insulation	Effective insulation against heat & sound
